No information is given as to why the building is req^d. There are apparently such buildings in other municipal towns.

2. Besides, what extent of the Jail at Hassan is utilized for the purpose? The S^t Councillor has lately inspected the same, and there may be room enough for the warehouse in it. The moneys mainly req^d for the latter may be better utilized.

Sir

With reference to Government Proc. No. 18123/L211.94 of the 24th Instant returning the Plan & Estimate for constructing the Municipal Warehouse at Hassan and observing that the necessity for the proposed building is not made out &c, I have the honor to state that at present there is a heavy loss of revenue under Octroi on Free goods on account of Smuggling, which cannot be effectually prevented until Godown accommodation is given to the wholesale dealers. The Board discussed this point and were unanimously of opinion that this being the principal source of Revenue, every effort should be made to foster it & the

Construction of a Warehouse was approved by the Board and a provision of Rs 2000/- was made in the Budget for the current year which was also sanctioned by Government in Proceedings No. 2564-9 / 4427-94 of the 13th of August last.

2. With regard to the question whether a portion of the old Jail Building cannot be appropriated for the purpose, I beg to observe that, apart from the fact that neither the members of the Board nor the Merchants wish to make use of an out of the way, distant & isolated building like the Jail, the building itself is not quite sufficient for both Landal Kobi and Lock-up. The Inspector General of Prisons on his inspection decided to retain the Jail building intact for the Lock-up and the necessity for a Landal Kobi was consequently decided by the Inspector Gen. of Forests, to be met by a separate building to be newly erected. The Executive Engineer accordingly provided for this in his Budget which however was struck out by the Chief Engineer even after preparation of plans & Estimates as per requisition of the Inspector General of Forests. Thus the old State of matters ...

Habugus albo the Heads of Departments con-
cerned have admitted necessity and approved
of additional provisions being made.

3. In this state of circumstances it is obvious
that the Jail building cannot be looked to to
meet more necessities of this Town.

4. I beg to submit that as Government has
been already pleased to sanction the proposal, the
matter may again be favorably reconsidered
and early sanction accorded, as otherwise greater
portion of the money will lapse.

5. The Plan and Estimate are forwarded
to the Executive Engineer for his signature
and will be submitted on receipt. There
will be some delay as he has proceeded on
a short Casual leave. I therefore beg that
Sanction to proceed with the work may be
Communicated early and that the Estimate may
be formally sanctioned when it will be submitted
in due course.
